Beef Bulletin

No.2

Welcome to the second edition of Beef Bulletin which I hope will help us stay connected and keep you up-to-date on what's happening around the Shoalhaven at least in the absence of our regular activities.

It seems we're destined to endure record-breaking annual rainfall this year. According to the BoM we may even be heading for another La Nina forming in spring, but perhaps let's not mention the war.

The recent All About Bulls Field Day was a huge success as I have received very complimentary feedback on the interesting material presented, Al Rayner our engaging presenter and the workshop at the yards in the afternoon. Shortly we will receive Al's notes and presentation slides which can be distributed to any interested member.

Our annual South Coast Beef activity program typically runs from February to September after which most people are too busy doing their own thing once the weather warms up. So with little time left here's what we've planned:

Activity program for the remainder of 2022
